Biodynamy,  
wine growing for the future

## La Renaissance des Appellations in Düsseldorf as guest on March 20th, 2010

On ProWine Saturday, the best of the best of biodynamic winemaking meets at the Präsidenten-schlösschen in Düsseldorf to present its wines and philosophies. The group La Renaissance des Appellations was formed by Nicolas Joly in the year 2001. Today, there are more than 180 top wineries from 13 countries which are members of this committed association. Each of them have been working for at least three years as certified biodynamic and ecological winemakers. The common denominator of these wineries was formed by their quality-Charta which was set up by the founding members and committee of Nicolas Joly, Anne-Claude Leflaive and Oliver Humbrecht. For further information please visit the following website: [www.biodynamy.com](http://www.biodynamy.com).

The biodynamic philosophy of the Renaissance of the Appellations arouses great interest all over the world, whether in Copenhagen, Bordeaux, Tokyo, New York or Los Angeles and the events are always very successful. This will be the third year that the tastings in Düsseldorf takes place, the first was held by Tony van den Broeke (Franzoesische Edelweine, [www.Franzoesische-edelweine.de](http://www.Franzoesische-edelweine.de)). Thanks to his preliminary work this has become a regular event with a personal note of each winemaker, a unique event in Germany and is looked forward to with eager anticipation.

**Saturday, March 20th, 2010**
